# **New Maruti SX4 & AT Variant Launch Soon**

Maruti Suzuki is soon going to launch the SX4 facelift. The [Maruti SX4](#) will now be available in a automatic variant and will get minor changes to the interior and exterior along with the upgrade to the engine which now with the help of VVT develops 106bhp and complies with Bharat IV emission norms. The interior is now beige along with a mix of wood on the doors. The audio system get USB facility. On the outside a new grille and 10 spoke alloy wheels do the trick. The car is now available in two more colours, namely blue and brick red.
