# Maruti Suzuki Introduces Estilo Vogue

Maruti Suzuki will sell its 2 lakhth Estilo in India this month. The company has started to export the car to South Asian markets including Malaysia and Indonesia (the car is known as Karimun here), where the Estilo has become one of the top five selling cars. The company dominates these markets, just like it does in India with four out of five best sellers being from the Maruti Suzuki portfolio. To celebrate this milestone, the company has launched a limited edition version of the car, dubbed the Estilo Vogue. The limited edition Estilo has accessories labeled with "Vogue" branding on seat covers, floor mats, etc. Stop yawning, will you!
