Zen Estilo Launched In Sri Lanka

AMW, the automotive company that markets Maruti Suzuki cars in Sri Lanka has launched the 2010 Zen Estilo. The Zen Estilo represents Suzuki Maruti's attempt to meet the aspirations of the Sri Lankan customer. The Zen Estilo is powered by a 998cc K-series engine with a rated fuel efficiency of 18.2 kmpl according to Automotive Research Association of India (ARAI). Although we don't have much information about the pricing of the car, we expect Maruti to offer value to our neighbours.
