# Mercedes India Plans Network Expansion

Mercedes-Benz India has indicated to invest Rs 150 crore in network expansion and upgradation of network partners during this financial year. After inaugurating the state-of-the-art workshop Adishwar Auto Diagnostics (P) Limited-Mahavir Motors at Secunderabad, the company has an extensive network with its presence across 25 cities across India represented by more than 45 touch points. Hyderabad and the adjoining areas have around 1,200 Mercedes-Benz cars. This is a step to further enhance the experience the patrons of the three-pointed star in the region.

Equipped with high quality Mercedes-Benz test equipments and trained manpower, the workshop has been built on the same standards as those of Mercedes-Benz across the globe. It can service a total of 16 cars daily ensuring on time service and maintenance support to customers in Hyderabad, Secunderabad, Vijayawada and neighbouring areas. Additionally, the workshop offers a broad suite of functionalities such as body and paint repair, wheel alignment etc. Technical support staff from Adishwar Auto Diagnostics has undergone extensive training by Mercedes-Benz to prepare for this initiative.
