# **Mumbai Fire Brigade To Utilize Mercedes Actros Trucks**

Municipal Corporation of Greater Mumbai (Mumbai Fire Brigade-MFB) which is the largest Fire brigade in India, became the first Government owned rescue organization to utilize Mercedes-Benz Actros Trucks in its fleet. The New Actros is the most technologically advanced heavy-end truck in India with features like three-millimetre-thick, pressure-tight guard plate for the radiator and engine, Automatic Intelligent Gearshift, first of its kind 8x4 configuration with 2 front steered axles, safety features like ABS, ASR among others makes the Actros the reliable and obvious choice for demanding applications as required for Fire Tenders.

“The Mercedes-Benz Actros Trucks offered to MFB are built on the robust Mercedes Actros 4841K chassis. MFB is a pioneering organization in terms of technologically advanced vehicles and enforces stringent norms on evaluation in terms of quality, technology and service. We are confident that the Actros Fire Brigade will be a useful value addition to the fleet”, commented Mr. P D Karguppikar, Chief Fire Officer from the Municipal Corporation of Greater Mumbai (Mumbai Fire Brigade).
