New Mercedes E350 CDI Launch On 12th November

Mercedes-Benz will be introducing the diesel line up of the E-Class with the launch of the E350 CDI V6 on the 12th of this month. The 2987cc engine in the E350 CDI has 225bhp of power on tap and a locomotive 540Nm of torque. The company will also introduce BlueEFFICIENCY technology in the diesel [E-Class](#). This technology reduces CO2 emissions and increases fuel efficiency by upto 12%.
