Mercedes Showcases SLS Gulwing Desert Gold Edition

The Mercedes-Benz SLS AMG was the highlight at the Mercedes Pavilion with its stunning gold paint finish. This matt silk finish with Matt gold on the aluminium body together accentuates the sporty appearance of the Gullwing model. All the decorative and mounted features that are in shining chrome or Silver Shadow in the standard SLS AMG have been given a deep-black paint finish by AMG's designers. The black-painted AMG light-alloy wheels in size 9.5 x 19 at the front and 11.0 x 20 at the rear are embellished with a golden ring on the rim flange. Completely black interior, with plenty of solid carbon-fibre ensures the car is as good inside as it is outside. The 6.3-litre AMG powers 571 hp of power to this beast.
