Meru Cabs Installs Speed Control Alarm System

Meru cabs boasts of features such as first aid kit in case of accidents and emergency situations and the "Lost and Found" tracking system for any item left behind unintentionally in a Meru cab are some of the features installed by Meru for the best use toward its customers comfort. In the wake of recent increase in road mishaps and freak accidents Meru Cabs has installed a speed alert alarm system in every cab. It is an automated voice that warns the driver if he has crossed the speed limit. The automatic speed control alert warns "Please slow down you are crossing the speed limit" and indicates the driver to slow down. This feature also helps in alerting the passenger to request the driver to check his speed.
