Mahindra-Renault To Launch Duster SUV

Mahindra-Renault JV hasn't be successful and Renault's India attack seems to have miserably failed with the boxy Logan. However there is some hope in the form of the Duster (whatta name) SUV. The Duster is based on the Logan and looks way more exciting then it. It will feature engines directly from the Logan in both diesel and petrol trim and will be offered in both two-wheel and four-wheel drive versions. If Renault price it well, we are sure the Premier Rio wont be the only affordable SUV around. Renault claim the Duster was designed to tackle all types of roads and tracks, all over the world. We are waiting to verify the claim.
