Skoda Introduces Summer Check Up Camp

Skoda is organising a comprehensive summer car check-up camp between 1st April – 30th April, 2011. This summer camp will offer a 16 point complimentary check and will offer a thorough examination of the AC, engine, steering, clutch, electrical system, tyres and wheel rims. The company aims to reach out and service around 20,000 cars through this campaign.

"Skoda Auto has constantly endeavoured to enhance the customer ownership experience. The Summer campaign offers a pre-emptive check-up and ensures our customers are not inconvenienced due to a change in season. This 16 point check up will ensure the necessary performance of the car and provide an enjoyable driving experience," Mr. Thomas Kuehl, Board Member and Director, Sales and Marketing, Skoda India said.
