# Skoda To Conduct Pre Monsoon Check Up

Skoda has announced its Pre-Monsoon Campaign across all their dealerships across India from 15th June to 30th June (all states except Tamil Nadu) and 15th August to 31st August (for Tamil Nadu). The campaign will offer a 30 point check up where the cars will undergo exclusive rain care related checks apart from cleaning of the plenum chamber, pollen filter, inspecting the tyre pressure and wheel alignment, brake pads, wiper functions, lights, etc. The company will also educate owners on safe driving in the rains.

"We at Škoda strive to enhance the satisfaction levels of our customers. We value our customers and therefore we initiate such preventive & maintenance campaigns from time to time," Mr. Thomas Kuehl, Board Member and Director, Sales and Marketing, Skoda India, said.
