Polo Alert - Skoda To Facelift Fabia

Skoda will unveil the facelifted Fabia at the Geneva Motor Show next week. The Fabia gets minor cosmetic upgrades including restyled grille, new bumper, revised headlamps and new alloy wheels. Infact the changes are so microscopic that we ask you (the readers) to please tell us what you see different on the new [Skoda Fabia](#). The more significant changes include adoption of Volkswagen powertrains on the car. We wonder when India will get the facelift, but looking at the [Volkswagen Polo](#)'s price, we expect it very very soon.
