Skoda To Launch Fabia RS

Skoda India will launch a more powerful version of the [Fabia](#) at the Auto Expo next year. The RS version is said to use engines from the Laura and will mostly be for brand building purposes rather than putting the sales chart on fire. After the demise of the much loved Octavia RS, this is one car which enthusiasts would love to have in their garage. Pricing will be the key for the cars success and knowing Skoda we don't expect any miracles, yet.
