Skoda Displays Yeti At 2010 HIAS

Skoda India displayed its much awaited SUV, the [Skoda Yeti](#) for the first time in Hyderabad at the Hyderabad International Auto Show 2010. The highly agile Yeti is compact, attractively styled with excellent handling characteristics (or so Skoda wants us to believe) and is bound to create a stir in this segment if priced correctly. The 4x4 variants are also characterized by outstanding off-road capability and excellent traction. These, coupled with superb emission values and low fuel consumption meet the needs of a socially acceptable SUV.
