# **New Tata Vista Launch On 15th August**

Tata Motors will launch the upgrade of the Indica Vista on the 15th of August, 2011. The facelifted Indica Vista will feature slight changes to the interiors as well as exteriors. The front now features the headlights and grille of the Indigo Manza. While the rear has slight changes to the bumper. The interiors now feature more equipment along with improvement of plastic qualities. There are no mechanical changes and the Vista continues to be powered by the same Fiat developed petrol and diesel engines. The new Indica Vista will get a slight price hike.
