Tata Manza Nova Concept Is Feature Loaded

[singlepic id= 10192 w=540 h=375 float=center]

The word Nova stands for a star becoming extra brighter suddenly; similarly Tata wants to add some extra luxury, feature and technology to their star the Manza sedan. Tata showcase Manza with its full glory by putting in many luxury elements inside cabin. Distinct Spanish Tan color and sophisticated and attractive alloys outside are only changes on exteriors. When we enter Manza Nova, we are welcomed by plush rich leather seats and sumptuous interiors which receive plum and black treatment. The chrome accented gear knob, parking lever, instrument console and HVAC adds luster. It comes with a new feature-rich 2 DIN head unit with improved speakers for that crisp and clear sound, to make the most of the new sound-staging virtual surround effects in the new music system.

Tata wants to make sure that we don't hit anyone and also ourselves while parking the big car. Warning signals will hit your eyes as well as ears if get too close with anyone. The display in Inside Rear View Mirror (IVRM) shows visuals with distance markings on it from rear camera and proximity sensors will sound a buzzer to warn you. The IVRM is equipped with Auto Dimming feature to reduce the glare of lights of rear vehicles to ease night driving. New and improved proximity security system will insure that your wanna-have luxurious Manza will remains yours only. List of features is totally realistic and can be brought on road anytime soon. So this version may be placed over current top end model Elan or if Tata Motors wants to treat their customers then this may come as replacement of Elan with marginal price increase.
