Tata To Launch Indigo Vista In June

After the success of the [Indica Vista](#), Tata Motors is gearing up to roll out the Indigo Vista by June, 2009. The Indigo Vista would be based on the Indica Vista platform and will be manufactured at the new Fiat-Tata joint venture at Ranjangaon in Maharashtra. Speculated to be priced above Rs. 5 lakh, the entry-level sedan would be pitted against Maruti Swift Dzire, Mahindra Renault Logan, Hyundai Accent, Ford Ikon, Chevrolet Aveo.

The new Tata Indigo Vista diesel will be equipped with the 1.3l Multijet engine of the Fiat Linea, the petrol variant of the Tata Indigo Vista would be equipped with the 1.4l petrol engine powering the current Tata Indigo. Just like the Indica Vista, the upcoming car will be having a central character line on the hood, sharp crease lines on the door below the beltline, a honeycomb grille and striking petal shaped headlamps with tall tail lights.
