Tata Nano Tuned By Abarth

While the [Tata Nano](#) is most certainly a good looking car, it can't be termed exactly as hot. However [Theophilus](#) has managed to work with his photoshop skills to transfer the people's car into one hot looking mean machine. As can be seen, the Nano Abarth has been edited in such a way that it looks straight out of Fiat's tuning division. Now only if Tata really go ahead and launch a limited edition run of the Nano Abarth.
