# **Toyota To Launch Camry Facelift In July**

Toyota will launch the 2010 [Camry in India](#) in July this year. The [facelifted Camry](#) was first shown at the 2009 North American International Auto Show. The changes in the facelifted Camry will mostly be cosmetic and include new front grill, new headlights, new fog lamps, indicators on rear view mirrors, 10 spoke alloy wheels and Aux input for audio system. The new Camry will be available in two new colours namely Dark Green Mica Metallic and Beige Mica Metallic. Only 400 cars are allotted to India for 2009.
