Toyota has launched Easy Seat Technology for the Corolla Altis in India. The Easy Seat uses a swivel and slide mechanism to allow easy entry and exit for people with special medical conditions like arthritis, etc. This can be purchased at any Toyota dealership across the country, at a price of Rs. 30,000/-. It is made to order and come with a one-year warranty. The seat is for the front co-passenger and is made to order. It can be fitted by a Toyota dealer only.

"The Easy Seat will enable us to serve our customers better and cater to their special needs. Toyota's global policy is to proactively provide travel solutions to a cross section of people," Sandeep Singh, Deputy MD, Toyota India, said.
