# Toyota Fortuner Features For India

The [Toyota Fortuner](#) is being launched on the 24th of this month and every SUV enthusiast is excited about the vehicle. But will Toyota change the features when the car hits Indians roads? No, they won't change much. The car is being bought in as a CBU and will have a host of features expected from a car of this segment. The Fortuner will have features such as rear spoiler, optitron meter, dual SRS airbags, 17 inch alloy wheels, automatic climate control, roof rail, multi-information display (MID), audio and MID controls on steering wheel, ABS, full time 4WD, back sonar and leather upholstery. The Fortuner will be powered by a 3.0L D4D intercooled diesel engine and will be a 7 seater, just like its younger sibling [Innova](#).
