Toyota Land Cruiser Diesel Launched In India

Toyota India has announced the launch of the [Land Cruiser Diesel](#). The 8th Generation Land Cruiser, which offers the ultimate four-wheel-drive and has unparalleled cutting-edge technology and comfort features, was unveiled in Mumbai by Mr. Hiroshi Nakagawa (MD, TKM). The Land Cruiser has a rich heritage of over 50 years and having sold over 5 million units globally, is the world's most successful SUV.

The multi-terrain ABS continually monitors engine revolutions and vehicle speed, instantly adjusting wheel-slippage regardless of surface conditions. The Hill Assist Control further contributes to smooth hill starts making the Land Cruiser suitable for mountainous terrain. And as always, passenger safety and security has been prioritized by providing 10 airbags with Seat Position Sensors, Active Traction Control, Vehicle Stability Control and Clearance and Back Sonar (to assist in cornering/reversing).

The new Land Cruiser has the world's most advanced four zone air-conditioning system where each passenger has an independent temperature control facility. The new Land Cruiser will be available in two options. One will have 9 speakers and the other will have an advanced 6 DVD, 14 JBL premium speaker system with EMV screen and a Moonroof. These options will be available at Rs 81.64 lakhs and Rs 83.1 lakhs (Ex-showroom, Thane) respectively.

Some key points about the Toyota Land Cruiser are :-

- Globally Unmatched Advanced Technology, Over-powering performance, Luxury and Off-Road Capabilities
- At attractive price of Rs 81.64 lakhs onwards (ex-showroom, Thane)
- Flagship brand of Toyota's SUV portfolio globally
- Overpowering performance with 4.5 L V8 diesel engine generating 286 PS, and a maximum torque of 650 Nm, with 6 speed automatic transmission
- Unmatched features for the ultimate driving experience - Unique Crawl Control System, enhanced Kinetic Dynamic Suspension System (KDSS), Hill Assist Control and Multi-Terrain ABS system
- Luxurious comfort: 6 DVD, 14 speaker JBL system with EMV screen and advanced 4 zone air-conditioning system with 28 outlets
- Unbeatable standards of passenger protection and security - 10 airbags with Seat Position Sensors, Active Traction Control, Clearance and Back Sonar to assist in cornering/reversing
- Available in 10 exciting body colors and two interior options
