# **Toyota India Launches 2010 Prado With Diesel Mill**

Toyota has announced the launch of the Prado Diesel in India. Inheriting the Land Cruiser's DNA, the basic concept for the new [Toyota Prado](#) is based on the design philosophy which aims to create an exterior with the active feel expected of a four wheel drive and an interior that is refined and roomy. Specific improvements include a 3.0L Diesel engine, and the adoption of a Kinetic Dynamic Suspension System (KDSS) that allows driving stability at city and highway speeds. The new Prado diesel can be booked right away at a price of Rs. 52.74 lakhs (ex-Showroom, Bangalore).

The 2010 Prado also features enhanced comfort features like 3-Zone Automatic Climate Control, Optitron Meter, Multi-information Display, Parking Assist System with front/rear sensors & rear camera and rich leather interiors. A host of Driver Assist Technology such as DAC (Down-hill Assist Control), HAC (Hill-start Assist Control), VSC

(Vehicle Stability Control) and A-TRC (Adaptive Traction Control) aid in outstanding off-road performance. The new Prado is available in five colours - White Pearl Crystal Shine, Silver Metallic, Grey Metallic, Greyish Blue Metallic and Black.
