Project Kahn To Enter India In 2012

Project Kahn is a famous British automobile design company which does aftermarket modifications to many high end cars. Famous for its uniqueness and quality finishing, the company has now decided to set shop in India. The first Project Kahn branch will be opened at Malabar Hills in Mumbai and is later expected to expand to other parts of the country. Afzal Kahn, the founder of the company has 18 years experience in the automobile industry and has done some awesome designs on Range Rovers, Audis, Bentleys, Ferraris, Jaguars, Porsche, Rolls-Royce, etc. Some of his work can be seen below. Meanwhile you can checkout the official Project Kahn website [here](#).
