BUY OR SELL  
BIKES

I happened to stumble upon this site [bikes4sale.in](https://bikes4sale.in) which is a very good site for buying a used bike or selling your used bike. Buying a used bike is not easy nor is selling your used bike easy. I have personally been on the look out for a Hero Honda Karizma and this site made it very easy to search for one. I was quite surprised to find two models of the Karizma when i searched, the Karizma and the Karizma R.

The interface of the site is very user friendly. Finding the bike of your choice is easy and fast. You can search for

a bike according to your location. As you can see from the screen shot above, all important details of the bike are listed and you can contact the seller which makes it very easy to buy a used bike. But that's not the best thing about the site. The best thing about the site is that it offers these services totally free of cost.

One of the best features of the site is the option of becoming a premium seller. You can become a premium seller by paying just Rs. 100 which I feel is totally worth the money. I really don't know how they can offer it for just Rs. 100 I wouldn't mind paying even Rs. 500 for the service they are offering. Your bike listing will appear on the top deals section of every page of the site and even in relevant searches on Google. This seems a very good deal. Checkout [Bikes4Sale.in](http://Bikes4Sale.in)
