Supercar Meet Experience By Adithya Raj

I attended the Supercar meet last week, which was organized by Gautam Singhania. Almost all brands of supercars were present at the event including Aston Martin, Ferrari, Lamborghini and Maserati. All the supercars were revving their big engines as if the fuel cost are of peanuts. This meet happens every month or two and was at turfs club. After everyone gathered the complete mob headed towards marine drive, then via sea link to the domestic airport and dispersed from there. In all, it was an amazing experience to witness the best cars in the world, being present at one location and driving in sync with the insane throaty roar from the exhausts making bystanders skip a beat.
