Ultimate Motors To Launch Hyper Cars In India

We don't have the roads but we want them. The worlds fastest cars which are not only fast but look the part are coming to our country this December. We had early reported on the arrival of the SSC Ultimate Aero [here](#) but Dubai based Ultimate Motors has other plans with the launch of the Zenvo ST1 and Arash AF10 as well. UK based Arash has a unique road car aerodynamics whereas Denmark's Zenvo comes with full carbon body and steel chassis. The cars don't come cheap at Rs. 5 crore.

"The demand for luxury cars in India is increasing of late and people are now keen to have customised cars. We are in touch with four leading dealers in India and expect to launch the commercial Super Hyper Cars by the end of this year," Ultimate Motors' President, Nasser Al-Hai said.
